DETAILED ACTION

Allowable Subject Matter

Claims 11-22 allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 11, the prior art of record, taken alone or in combination, fails to disclose or render obvious a system for measuring orthogonally polarized Bragg wavelengths including: at least one birefringent Bragg grating sensor for reflect orthogonally polarized Bragg wavelengths and an FBG interrogation apparatus that measures the Bragg wavelengths of the birefringent FBG sensor for determining a minimum and maximum Bragg wavelength of the FBG sensor, in combination with the rest of the limitations of claim 1.

As to claim 19, the prior art of record, taken alone or in combination, fails to disclose or render obvious a system for eliminating signal fading including: at least one birefringent, dual polarization FBG sensor that reflects two orthogonally polarized eigenstates with different wavelengths and a polarization controller to align the eigenstates at forty five degrees relative to a linear polarizer thereby providing a beat signal, in combination with the rest of the limitations of claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
